

## **PANTHER CAR CLUB, MODEL VALUATION 08/2016.**

**GUIDE TO CONDON CATEGORIES** (which concurs with the PCC Insurance Valuation Form).

**Concours:** Properly restored with supporting documents/photos/history, or totally immaculate well-preserved original cars.

Should be potential concours contender with no work necessary. Vehicles with special historic significance could be worth concours value.

**Condition A1:** Genuine very good condition; totally original with history or restored, but needing slight improved detail to make concours.

**Condition 1:** Good Condition in every respect, not potential concours winners. May lack history or originality but totally free from significant faults.

**Condition 2:** Basically sound cars capable of regular use with current MoT Certificate but would benefit from some attention.

**Condition 3:** Complete running cars in need of major work but drivable. Buyers beware!

**Note...** 'Condition' includes 'functionality' of item(s) or components, where deemed applicable.

These values shown are for guidance only, based on current information including that supplied by both 'buying' & 'selling' Panther owners, of which the Panther Car Club now files, so accordingly these details are verifiable. The majority of Panther Models would fall into the 'Condition 1' & 'Condition 2' categories'.

The condition of the car is equally as important as the age of the car, but age should be taken into consideration especially if/where factory additions &/or modifications have taken place on that particular model range. Please remember, an 'average' condition Panther is actually very good !

It's just that exceptional cars are better, & therefore valued accordingly!!
